THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. Shipbuilding

- a. Attached is a sketch of the type of Russian naval vessel, (see Attachment 1). These vessels have left the dockyard and, have proceeded to Pillau. The vessels were not equipped with guns and it is believed that they will be fitted on their arrival at their destination at either Pillau or Kaliningrad. The hull of these vessels was painted a dark grey and the funnels a light grey.
- b. At present there are two Neptun luggers in the yard which are now complete and have undergone trials. The ice breaker currently under construction will be finished by the end of December 1951. Preparatory work for the new building program for 1952 has begun and with the departure of the two above-mentioned luggers the building program for the year 1951 will be completed and will have totaled 67 luggers.
- c. Nine luggers are at present on slips and are 90% complete. Trials of these craft will take place during December.

2. The dockyard

- a. The construction of a new welding shed (Schweisshalle) to the west of the ship construction shed is nearly complete. It will be mainly used for welding work on the hulls of luggers.
- b. Recently security control in the dockyards has tightened up because of rumors of sabotage. There is no information as to the reason for this and no indication as to what sabotage has taken place.
